Wm. Brown, One of the "306," is the Ghoul Who Viliifies the Dead

The Union and Central Pacific Said to be Working Against the Chinese Bill—A Minority Report.

(Associated Press Dispatches.)

WASHINGTON, March 20.—William Brown, the author of the recent attack in the *Post* upon the late President Garfield over the signature of "Justice" was really a delegate to the Chicago Convention from Kentucky, says Congressman White, of Kentucky, who was Chairman of the Delegation from that State, but the Kentucky Republicans all unite in declaring that he does not reflect any sentiment of the State in his assault upon Garfield.

AGAINST THE CHINESE BILL.

It is understood that the friends of the Union and Central Pacific Railroad Companies are working vigorously against the passage of the Chinese Bill in the House. They are interested in head money, and also in Chinese labor.

REPORTED FAVORABLY.

Judge Blatchford's nomination has been reported favorably.

SENATE.

Teller from the Public Lands Committee reported a bill to shorten the period of residence necessary to acquire titles to homesteads, making it three instead of five years. It reduces the period of absence from six to three months. He also reported a bill to settle the titles of actual settlers or DeMoines River Railroad grants.

THREE YEARS FOR CROOKEDNESS.

Hiscock, Chairman of the Committee on Appropriations, reported back the Senate bill for further relief to the overworn sufferers. Agreed to. It authorizes the same expenditure for strengthening levees.

THREE YEARS FOR MASTERS.

House.—The Speaker laid before the House a message from the President in response to a resolution asking him to furnish the House a statement of the facts before him at the time he authorized the sending of troops to Nebraska. The President states that the facts are set forth in the telegraphic communications dated the 1st and 10th of March from the Governor of Nebraska. Authority to employ troops was given on the application of the Governor in order to protect the State against domestic violence, and in compliance to the Constitution. The message was referred.

BETTER IS BETTER.

The following dispatch was received to-night by the Chairman of the House Committee on Foreign Affairs:

NEW YORK, March 19.—Hon. G. G. Williams, Washington.—Shipherd has been ill, but will leave to-morrow for Washington, taking his physician's certificate with him. (Signed)

THOMAS KAVANAGH.

Deputy Sergeant-at-Arms.

At the meeting of the House Committee on Foreign Affairs a telegram was read from Shipherd stating that he expects to reach Washington this afternoon.

GOOD FOR THE MINORITY.

It is understood that the committee auditing the bills of the expense of transporting members of Congress to the funeral of President Garfield will present this week a majority and a minority report. The former recommends the passage of a bill appropriating the amount required to settle the various claims, while the latter will criticize severely several items of the account, such as those for wines, etc.

A Picture of the Flood Disasters.

HELENA, Ark., March 19.—The water is falling slowly in the river, but the overflow in the city remains stationary. The general situation is brighter. The effects of the overflow are being roughly estimated, and the figures reach millions. The suffering at points not easily accessible still continues. New stories of distress reach Helena hourly. The city full of the people who have escaped from the low lands, and hundreds of hands will go into the upper country and desert their old homes forever. The steamer Columbia brought meal and bacon for shipment to the sufferers on the sunken lands on the upper St. Francis, which went forward this afternoon. Additional news from that region shows a still more frightful condition. They raise cotton and corn and hay, and are said to be the finest stock raisers on the face of the globe. Thousands of cattle of the finest Kentucky breeds are floating around dead, or are upon scalds or on rafts that have been tied to trees to keep them floating. A few Indian mounds that appear show the only ground for nearly 400 miles, and are the only remaining vestiges of that prehistoric country, and these will be used to land rations, it being unsafe to select any of the houses on the route.

The Screamer Goes Down.

BOSTON, Mass., March 19.—The ship Screamer, from Philadelphia for New Orleans, with coal, went down in a gale on the 10th instant in latitude 34° 40', longitude 74° 47'. Three of the crew sank with the ship. The remainder were picked up by a boat near by.

The Strike Spreading.

LAWRENCE, Mass., March 20.—The strike in the mills is spreading. Four hundred more operatives joined the strikers this morning.

More Pestilence.

DENVER, Colo., March 20.—Information reaches here of a shooting affray at Carcasas, Colorado, resulting in the killing of one Mexican and dangerously wounding another by F. H. Mobray, an employee of the Denver & Rio Grande Railroad. Mobray owed the Mexican four dollars and offered to pay, but the latter claimed eight dollars. The dispute resulted in the Mexican beating Mobray, who shot in self defense. The high position of the Mexican created a bitter feeling among this element, who were about to lynch Mobray. He was taken to the county jail for safety, from whence he has escaped.

Cut Her Throat—Jealousy.

CHERRYFIELD, Me., March 23.—Last evening as Mrs. Hattie Sprague, widow, was leaving church Chester Cunningham stepped up, drew a knife and cut her throat. She died almost instantly. Jealousy was the cause.

Shutting the Mail Boxes.

BOSTON, March 19.—Postmaster General Howell refers to his intention to shorten the mail service between New York and San Francisco a day and a half, says he will make the connections the same throughout the country wherever practicable.

Bethlehem's Scourge.

SOUTH BETHLEHEM, Pa., March 20.—There were eighteen deaths from small-pox since Friday. The disease is abating. Many stores and saloons were closed on Saturday. Public gatherings are avoided.

Carrie Bradley's Man.

PORLTAND, March 19.—A dispatch received here to-day says that Charley Hamilton, Carrie Bradley's man, has left Mazatlan and gone to Valparaiso.

Three Years for Crookedness.

COLUMBUS, Ohio, March 20.—Fred Newburgh, late clerk of the Board of Public Works, who forged checks on the State Treasury to the amount of \$20,000, and against whom fifty-two indictments were returned to-day, had a hearing on motion for a new trial, having been convicted on one charge. The motion was overruled and he was sentenced to three years in the penitentiary.

Closing the Works.

LAWRENCE, Mass., March 20.—One thousand looms in the Upper Pacific Mill and the entire worsted department will be closed to-night, throwing three thousand persons out of employment.

Chicago Workmen Resolved.

CHICAGO, March 20.—A mass meeting of the Trades Assembly yesterday adopted resolutions denouncing the Governor of Nebraska for calling out the militia against the Omaha strikers. A platform was adopted declaring that every workman should join a union, which should fix wages, denominating "scabs" and the Chinese, and those who patronize them; denouncing interference by army, police or militia with their attempt to regulate wages; insisting on lower rents in Chicago, and deplored the demoralized and venal character of the press; declaring that the people should rise and regulate things.

BURIED IN A SNOW-SLIDE.

SAN FRANCISCO, March 20.—A Bodie dispatch Wednesday night says a snow slide in Lake Canyon buried several men, four of whom, Robert Trumbull, Alex McKeon and D. B. Grant, miners, and Henry Schumacher, engineer, were killed. Their bodies were recovered, but a second slide buried them under forty feet of snow. Over forty slides occurred in Lake and Mill Creek Canyons between Wednesday and Saturday, burying in all thirty-eight persons.

With the exception of the above named the only one seriously injured is Christian Hobleid, who was buried for nineteen hours and is likely to die from his injuries.

The heavy storm has isolated Bodie for nearly a week.

The weather is now clear in the mountains and along the line of the railroad, and the blockade will probably soon be broken.

TRUCKEE BURIED IN SNOW.

TRUCKEE, March 20.—The storm is over. Truckee is literally buried in snow. The smaller buildings are out of sight. Snow is piled up almost even with the balconies of the buildings along Front street. The whole population is out breaking thoroughfares and opening up communication with neighbors. The blockade on the railroad continues at this writing, three P.M., but the prospects are that it will be lifted by to-night. The snow-plow which was fast in the drift at Coldstream has been released. There are about three hundred men at work at tunnel No. 3 clearing away the snow which had drifted in the sheds. As far as can be ascertained there are no further wrecks in the snow-sheds along the line.

The snow plow which was under the management of Conductor Avery, has had a very severe fight with the elements. They have been snowed in two or three times, been off the track a number of times, and a dispatch has just been received that they have

EMPLOYMENT.

Two men were shot and instantly killed on the 15th instant near Willow Creek by Lucian Langdon. The names of those killed are A. H. Crooks and S. J. Jory. Langdon, after the shooting, mounted his horse and escaped. A large posse is in hot pursuit. The trouble is supposed to have grown out of a law-suit.

THE BEAUTIFUL SNOW.

A Happy Time in Blue Canyon—Four Days in a Drift.

EMIGRANT GAP, March 19.—Two sections of the west-bound train and the passengers and emigrant train of three days ago left here yesterday afternoon with the west-bound train at Blue Canyon, which had been stuck there four days. They have got through. The east-bound train reached this place yesterday forenoon. About six hundred men are working west of Blue Canyon trying to keep the road open. The storm raged furiously last night, the snow drifting badly. The snow plow is stuck west of Blue Canyon, and another blockade seems imminent. A later dispatch says that the snow-bound west is stuck about three miles west of Truckee. The plow of the east-bound train cannot get out until morning. No trains can get through to-day. It is snowing hard. A dispatch from Alta says the situation is discouraging. The road was opened last night and the stalled trains passed. A heavy snowstorm has been raging since, and it is deemed impossible to keep the road clear. The snow is five feet deep. A violent snowstorm is prevailing at Virginia City, and the snow is already three feet. A dispatch from Carson says the road is impassable between there and Reno due to snow-drifts. Neither stage nor train can reach there.

THE STATE AT LARGE.

Dispatches received from thirty-seven interior towns of the State in reference to the observance of the Sunday law. No attention was paid to the law only in twelve places out of the thirty-seven.

ENTERED.

Five hundred and eighty-eight complaints for violating the Sunday law were filed this morning. All, or nearly all, are against saloons and cigar stands. Complaints were filed against several theaters and music halls, but the Prosecuting Attorney declines to take action on them, holding that they do not come within the law.

The Oldest Colony—Rich Enough to Grow Anything that Grows—Water Facilities—No Mortgages.

Anaheim was the first colony settlement in Los Angeles county if not in the State, and is also among the most prosperous, as about all the original colonists are well to do so far as this world's goods are concerned.

The country is rich enough to grow anything that will grow in California, and the water supply is ample, but as water has sometimes been scarce on account of the ditches and reservoirs not having sufficient capacity, three additional miles of ditch have been dug, three more will be dug to complete the new system, and the largest irrigating reservoir in the State will be constructed, at an estimated cost of \$50,000. The capacity then will be sufficient after the reservoir is once filled, and the largest irrigation system in the State will be completed at a total cost of \$50,000.
